Attn: Mr. Bob Shumway

Dear Mr. Shumway:

We recently were informed by the legal firm of Williams, Turner, & Holmes, P.C., that you encountered "poisonous gas" while drilling to evaluate your uranium ore mining claim at our Lisbon Field. Such an incident is concerning to us and we are anxious to look into the matter. However, we need information from you in order to evaluate any potential impacts caused by our operation.

Please provide us with the following:

1. Location of evaluation well
2. Depth
3. Description of activity when "poisonous gas" was encountered
4. Any steps, or tests, or observations, to identify the "poisonous gas"
5. Pertinent dates
6. Any other info which you feel is appropriate to determine cause or source of the gas.

Please contact me or Glen Papp if you wish to discuss this issue, or if you prefer to meet with us.

Very truly yours,

Union Oil Company of California
dba UNOCAL
